**Response to August 11, 2010 Final Office Action**

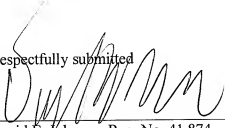

In response to the August 11, 2010 Final Office Action, please consider the following remarks.

The only issues remaining in this case are the rejections for obviousness-type double-patenting of claims 50-52, 54, 56-75, 77, 79-95, 97-104 and 108-131 in view of claims 1-11 of U.S. Patent No. 5,922,355 ("the '355 patent") in combination with either US Patent No. 5,976,577 ("Green") or US Patent No. 6,475,510, ("Venkatesh,"), and, separately, of these claims over the combination of USSN10/260,788 ("the '788 application"), Green, and Venkatesh. While not agreeing with the Examiner's rejection, in the interests of expediting prosecution Applicants enclose a terminal disclaimer disclaiming the term of a patent issuing from the instant application to the extent it extends beyond the expiration date of the '355 patent and the expiration date of a patent issuing from the '788 application. Applicants request withdrawal of the rejections for obviousness-type double patenting.
